

# DEMOCRATISING LAW WITH AI

## ACCESS TO JUSTICE

The access to justice issue is often considered from the lens of personal law - family or criminal law, for example. However, it's also a small business problem, with many small businesses forgoing legal advice due to cost.

## ACCESS BARRIERS

There are multiple barriers to obtaining legal advice for small businesses. It could be **location**, it could be **time**, it could be **cost**. It could even be a **wrongful perception** of what legal services can do

## ANALOGOUSLY...

Tax compliance once required seeing an accountant every year for them to look at the books. Today, most small businesses are using self serve systems such as Xero or MYOB. But those systems didn't take those accounting jobs, just supplemented them.

## GETTING INVOLVED

Move to a model that makes legal services more affordable - eg reducing time billing. When it's more affordable it reaches a wider range of potential clients.
