

# Start-ups in Australia

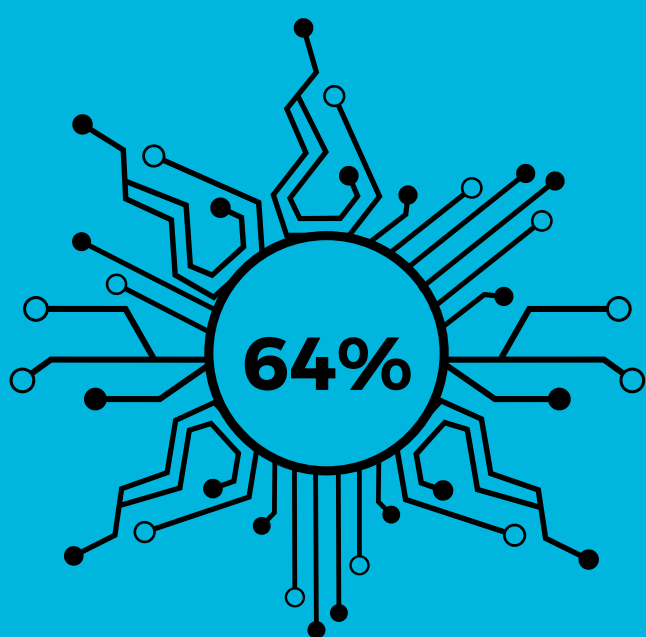

HTLP.COM.AU

No. of Start-ups

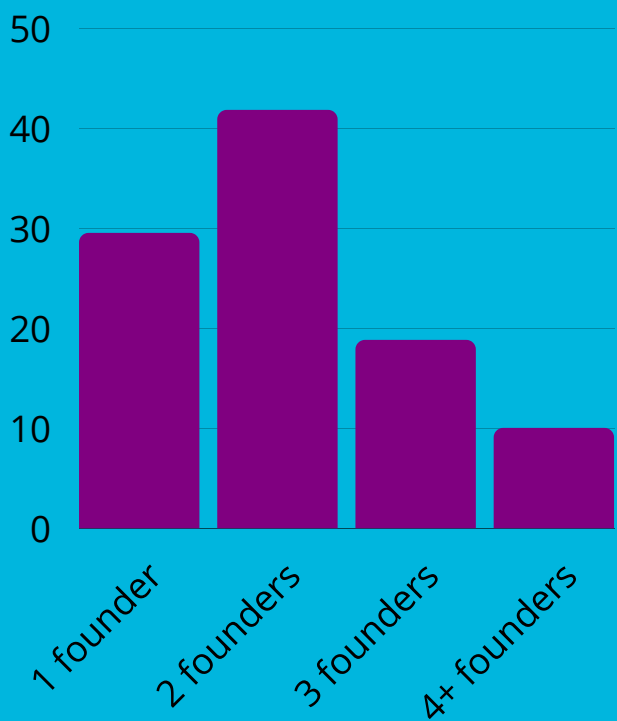

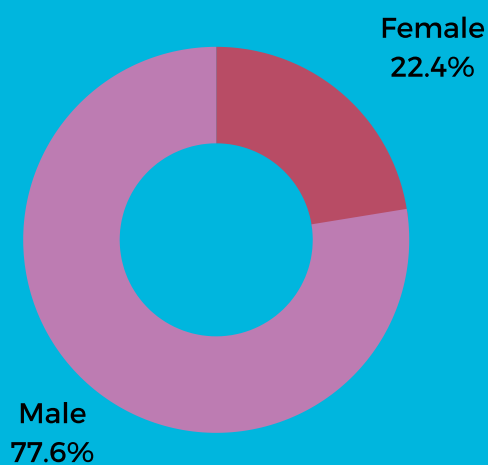

The number of start-ups across Australia are decreasing. This is linked to a lack of early stage support.

In 2018-19 roughly half as many early stage deals were signed as in 2016-17 when early stage funding was at its peak.

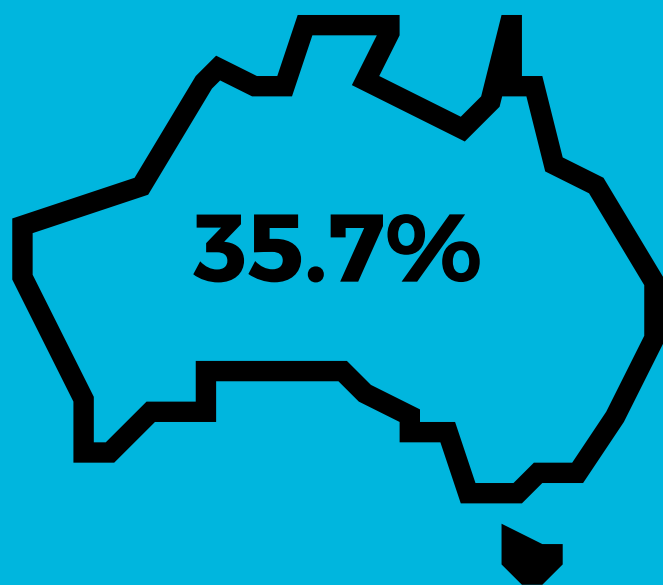

Of all Australian tech start-ups are launched in NSW

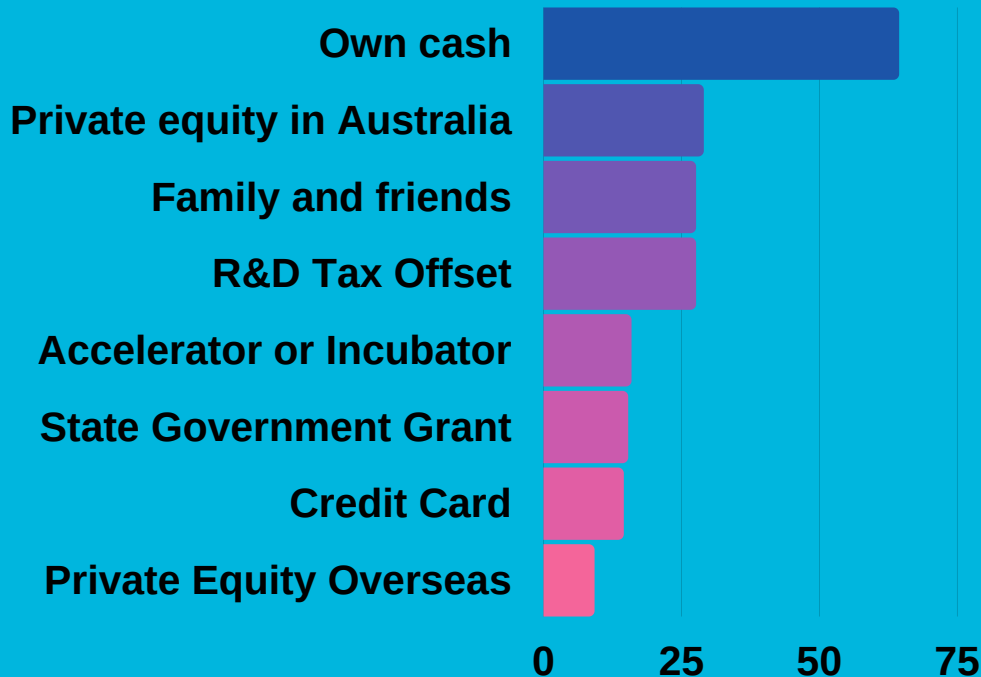

Over 3/4 of start-up founders are male

Number of founders in a start-up

35.7% of start-up founders were born overseas

Cash is the most common source of start-up funding
