

ICIP. is...

with Stephanie Parkin

knowledge.

generated from Aboriginal Torres Strait Islander people that's connected to a particular place or country and that has been passed down through the generations connected to that place.

connection.

connected to things like information about seasons, information about land management, different styles of artwork and cultural expressions, and the stories that are connected to cultural expressions.

place.

the information that has been passed down through the generations that's connected to us specifically and then takes form in different ways. So, people might use that information now about creation stories to inform their arts practice.
